EASY INSTALLATION

Description

- **Realistic & Thick Artificial Hedge:** Show a more realistic appearance through 12PCS 2"(50mm) tall and 4 layers of leaves, (not 3 layers), and our denser panels(400 stitches per tile panel) are not "see through" and offer better privacy Hedges. It has sun protection and will not fade due to outdoor use.
- **For Indoor and Outdoor Applications:** Perfect for adding privacy to an outdoor patio area, aesthetically enhance your area with a realistic look to beautify and transform your fence, walls, patio, garden, yard, walkways, backdrop, interior and exterior or your own creative design on party, Wedding, Christmas decorations.
- **Durability:** Our artificial boxwood topiary hedge plants are Sun-proof, weather resistant, low-maintenance, eco-friendly and these greenery panels are made of lightweight yet super-strong high density polyethylene that's soft to the touch.
- **Easy Installation:** Each panel features interlocking connectors for easy do-it-yourself installation. Simply follow the manual to guide you through the process. You also could use scissors to cut, fit and shape to any space.
- **SGS Certification and Intertek Certification:** Our artificial boxwood panels are SGS certified and are absolutely safe, environmentally friendly and non-toxic. Greenery panels are made of new PE for durability and sun protection, and are tested and certified for light aging under sun exposure.
